The project includes moving this equipment to a new tower located adjacent to the existing structure.

Scope of Work:

1. Carefully remove all UHF/VHF radio equipment from the existing tower.
2. Remove all old antennas currently installed on the existing tower.
3. Install four (4) new antennas on the new tower.
4. Install an additional new UHF antenna on the new tower.
5. Transfer all radio equipment to the new tower and ensure proper functionality and alignment.
6. Conduct all work in compliance with applicable safety standards and regulations.
7. Coordinate with Logan County officials and maintain site cleanliness throughout the project.
8. Install customer supplied Point to Point antenna and cable on tower, coordinating installation and calibration with Logan County IT Director.

Project Meeting:

A mandatory project meeting will be held on site on Thursday, March 12th at 9:00 AM CST. Attendance is required for all bidders to review site conditions and project requirements.

Project Oversight:

The work will be overseen by Wilson Communications to ensure compliance with project specifications and quality standards.
